

Anonymous Donor Supports Summer Camps

The ACC Foundation recently received a donation to support five exciting camps at ACC this summer.

Ladies in Technology Summer Camp. Rising 6th to 9th grade girls will engage with IBM female professionals on topics such as career choices as they build an IBM robot.

Summer Writing Camps. These camps provide separate weeks for elementary, middle and high school students to experience a college campus and write creatively in a variety of forms.

Engineering for Instructors. This summer program at NC State University will train teachers in age appropriate methods and curriculum. The engineering camp for elementary and middle school students will kick-off in summer of 2019.

Piedmont Voices Writing Project Initiative: Summer Institute for Teachers. Partnering with UNC-G, local K-12 teachers will establish best practices for writing instruction.

Focus Local – Our Home Towns: Local History for ABSS Social Studies Teachers. The program is designed to build partnerships with the NC Archives, area museums and ABSS social studies teachers. The program will highlight the history of Burlington, Graham, Mebane and Haw River.

Scholarship Guidelines for Donors

Intent

Many individuals, businesses and organizations wish to establish named scholarship funds for various reasons, which may include:

- Honoring or memorializing a particular person;
- Ensuring donations target a particular group of students (curriculum or geographic area, for example); and
- Ensuring recipients understand the source of the donations (XYZ Company Scholarship, for example).

Guidelines

- For a one-time named scholarship, the minimum donation is currently \$1,000. This type of scholarship can be funded and re-awarded year after year, if the minimum donation threshold is met.
- For an endowed (permanent) named scholarship, the minimum donation is currently \$20,000, which may be funded over a period of up to four years.
- Donors should be aware that it costs \$3,500-\$5,000 for a curriculum student to attend ACC full-time for a year. However, many students attend part-time due to work, family or other commitments.

Other

- In general, ACC students receiving ACC Foundation financial aid must have at least a 2.5 grade point average and a 75% course completion rate (courses are not dropped or failed). They also must demonstrate need. It is acceptable to deviate from these guidelines; however most donors find these default parameters acceptable.
- Most ACC Foundation named scholarships cover tuition, fees, textbook and instructor-required supplies. It is acceptable to deviate from these guidelines, however most donors find these default parameters acceptable.
- Care should be taken so that the restrictions don't make the scholarship difficult to award.
- The ACC Scholarship Committee awards the scholarships.
